The Lovely Woman's Kisa

BY AN ENTHUSIASTIC YOUNG MAN. I're banqueted on luxuries Produced in every clime. I've feasted on rich turtle soup, And supped on ovsters prime;

But nothing so delictous is Within a world like this, As soft caresses seasoned by A lovely woman's kiss.

I've gloated o'er the festive board, And drank rich draughts of wine; Ire listened at the opera To melody divine: But ah ! I've never, never met

Such sweet excess of bliss As thrills the soul when lips receive A lorely woman's kiss. In glitt'ring halls of splender rare I've passed the midnight hours; In gardens beautiful and fair I've wandered mid the flowers;

But there's a dearer joy than these-A joy I would not miss; heavenly rapture which is found In lovely woman's kiss.

In my last hour, when death draws near, In darkness and in gloom, May woman's smile my pathway cheer, And light me to the tomb : And when my soul shall take its flight. To other words than this, May it be wafted to the skies

Internture.

By lovely woman's kiss.

Division of York County.

From time to time, during the past three years we have called the attention of the people it this part of the country, to the necessity of a change, or rather division of these Counties, and also pointed out the advantages to be derived. True many reasonable objections can be urged against taking this step; but we believe the begefits to be conferred will more than counterbalance. We are again called to this subject on reading over the General Statement accompanying the minutes of last meeting of York and Peel Counties' Council. Before referring to the facts and figures embodied in these minutes however, we purpose recalling to the memory of our readers a few statistics presented on former occasions.

Just previous to the discontinuance of the Torento Ezaminer, the Warden addressed letter to that journal, animadverting upon a report of the Grand Jury then recently premodetion in the Toronto Jail,-which report. letter referred to:-

"The Jail at present occupied was built by the District Magistrates, prior to the organization of Municipal Councils in Districts, at a cour of £16,000, and has been occupied jointly by the present time, without anything ever being paid by the City towards the cost of its con struction. To the Editor of the New Era. Newmarket, July 19, 1853.

Mr. Epron. - A public journal is, I conceive. the proper rehicle by which to convey to officials the knowledge of the existence of a gelevance which it is in their power, and al the same time their duty, to udiess. This idea, coupled with the fact of your having repeatedly stated your willingness to open your columns freely to all parties requiring their assistance, prevents me from apologising to you for occupying so much valuable space, and to your readers for not delaying until some one more competent than myself should bring the same matter before the public and to the knowledge of the public's servants. I allude to the fact of their being but one

That notwithstanding the existance of a rail-

Lastly-The next mail trill departs not until the following morning.
